

South Patagonia is the last frontier of the American continent. A land of wind, wilderness and stunning landscapes. During this complete and comprehensive journey we will have the chance to spot from sea birds as the Black-browed Albatross and the Antarctic Giant Petrel, to endangered waterfowl as the Ruddy-headed Goose, from specialties as the Magellanic Plover to the forest birds as the Magellanic Woodpecker, Bicolored Hawk and flocks of Austral Parakeet. During our exploration of Tierra del Fuego we will go for the King penguin that return to breed in Useless bay probably after thousand of year of absence.

DAY 1 PUNTA ARENAS – TORRES DEL PAINE PARK

We depart in the morning for a great driving through the steppe of Patagonia to reach the National Park Torres del Paine, a UNESCO World Biosphere Reserve. On the route we will scan all the alkaline lagoons and ponds to make the first attempts to find the unique Magellanic Plover and other species of waterfowl and waders. The drive will be the perfect chance to start the quest for the specialties of these areas as the Lesser Rhea, Chocolate-vented Tyrant and Least Seednsipe among others.
